

Tesla's Transcenders

The Tesla's Transcender is available in two versions, adult and junior sizes..

Whilst it too will work with the emotions and balancing the energy of the person, it

also has its own unique signature of working at the DNA level.

It's the perfect answer to being able to tap into the Cosmic Universe at any time and almost any place. The vortex energy that is felt within the Transcender helps to assist one back to a balanced state with a noticeable clearing of the mind.

Many people feel the swirling of energy going through their body which tends to make them rock to and fro. This affect occurs because of the way the Tesla's plates in the Tesla's Transcender interact with the double helix of the DNA, clearing unbalanced energy patterns no longer serve you. With the Tesla's Transcender you can either stand, sit on a wooden chair or stool over it, or sit crossed legged directly on top of it at floor level. All three positions create different scenarios of energy balancing. The Tesla's Transcender is also a wonderful place for your daily meditation.

It's the perfect answer to being that able to tap into the Cosmic Universe at anytime and anyplace. The vortex energy that is felt within the Transcender help to assist to a balanced state with a noticeable clearing of the mind, this can vary depending if one is standing, sitting on a wooden stool or a plastic chair or sitting directly on the centre plate.

This flexibility enables the person within the Transcender to achieve different states of consciousness. It comes with a cotton canvas

base that is very

easy to transport and is designed for personal use when traveling
