

## HearTen Soul

The HearTen Soul Plate has been developed to be worn at the body's Assemblage Point, and as its name suggests it connects our heart and soul which sometimes becomes disconnected.

The Assemblage Point is the epicentre of the human energy field.

The Assemblage Point has a direct influence over the biological activity of all organs and regulates how we feel and behave.

The HearTen Soul plate becomes part of you (the wearer) within an hour of wearing it, BUT unlike your Personal Pendant the HearTen Soul does not do well in water as the glue that holds these plates together weakens in water.

Please, no swimming, soaking in the tub or showering with your HearTen Soul on.

As with your Personal Pendant you can use a titanium link and place it on a necklace.

The picture below shows the correct position to wear your HearTen Soul.
