

# Practitioner Basic Knowledge Exam Level 1

Please put an X within the brackets ( ) at what you feel is right answer

Name:

Date:

**1. What is EMF?** Single Answer

- Electromagnetic radiation from train lines
- Electromagnetic fields from wiring or appliances
- Electromagnetic fields radiating from radar equipment

**2. What is EMR?** Single Answer

- Electromagnetic fields travelling in waves through the air
- Electromagnetic radiation from TV & radio appliances
- Electromagnetic radiation travelling in waves through the air

**3. What can Geopathic Stress be?** Single Answer

- Underground water, Ley lines, Phone towers & Power lines
- Living near a highway
- Land that's draught stricken
- Lines on a map
- Ley lines are a good place to lay

**4. Some of the effects of Geopathic Stress?** Multiple Answers

- Deep restful sleep
- Susceptibility to allergies
- Strong immune system
- Hyperactive children
- Calm house hold

# Practitioner Basic Knowledge Exam Level 1

## 5. What does a pendant do? Multiple Answers

- Causes the brain to work in beta all the time
- Activates all the brain frequencies at the one time, continually
- Causes the brain to work in delta all the time
- Strengthens the immune system (people never get sick)
- Protects the wearer when using a mobile phone
- Strengthens the thymus & immune system (recovery is quicker)
- Strengthens the auric field
- Protects the auric field from all EMRs
- Puts the auric field into an impenetrable cocoon
- Keeps the wearers vibration at 7.9
- Keeps its vibration just above the wearers vibration
- Negates EMFs affecting the thymus

## 6. What does a Stabiliser do? Multiple Answers

- Treat all airborne transmissions for TVs & radios
- Cause all electrical appliances to emit negative ions
- Cause electrons in the wiring to become chaotic
- Treats all electrical appliances on the wiring system
- Makes sleeping over underground water safe
- Makes sleeping on an electric blanket safe
- Causes electric fans to blow positive ions

## 7. How does a Phone Tag help with phones? Multiple Answers

- Stops all radiations
- Decreases the signal strength
- Alters the microwave/radio signal from chaotic to coherent
- Stops the effects on the human from the phones transmissions
- Stops the EMF/EMR readings on test equipment

# Practitioner Basic Knowledge Exam Level 1

## 8. What does a Car Plate do & where does it get put?

Multiple Answers

- Is placed under the driver's seat
- Is placed in the dashboard under the radio
- Is placed over the petrol tank
- Is placed in the console between the seats
- Always has concave side facing into the electrics in the car
- Makes the driver & passengers sleepy

## 9. What does the House Plate do? Multiple Answers

- Treats all EMFs through the house
- Alters all the air born transmissions of EMR
- Allows you to sleep over underground water safely
- Alters the area for approximately 3klm (2mile)
- Stops transmissions from mobile phone towers
- Covers an area of approximately 1/2htr (1acre)

## 10. Where does the energy for these plates come from?

Single Answer

- Universal energy
- Central Sun
- Keith & Carol's house
- A scientist in the USA
- Two scientist in Canada

# Practitioner Basic Knowledge Exam Level 1

## 11. How do the Tesla's Plates travel best and why?

Multiple Answers

- Put them in your brief case any way they go
- Facing them all the one way puts them to sleep
- Facing them to each other puts them to sleep
- Put them all facing the one way in a brief case
- Facing them all the one way makes them expand their energy
- Put them all facing each other in your brief case
- Facing them to each other makes them expand their energy

## 14. What does a Water Kit do & where is it fitted? Multiple Answers

- Filters out chemicals
- Puts life force into the water
- Is fitted at the most used tap
- Takes out the heavy metals from water
- Clears chemicals in the water memory at a molecular level
- Takes out the fluoride & chlorine
- Needs replacing every three months
- Alters the effects of fluoride & chlorine
- Is fitted to the main water pipe coming to the house or flat
- Alters the structure of water

## 15. What are the Tesla's plates & what do they do?

Multiple Answers

- The plates absorb bad energy
- They alter the transmissions of EMR/EMFs
- They are transceivers of photon/tachyon energy
- They protect the environment & people from EMR/EMFs
- They are transceivers (receive & transmit) of universal energy
- The plates deflect EMR/EMFs
